The Four Pillars / Eight Characters form of astrology, based on the Five Elements and the 60 Year Cycle of Ten Heavenly Stems and Twelve Earthly Branches, is one of the oldestest systems that enable us to view ourselves in a unique and very complete way.

During this workshop, you will learn how this system works and how it can provide insights into your motional disposition, physical strengths and weaknesses and many more aspects of yourself. In addition, we will be going over charts and learning the Five Element Qigong set and meditations which will enable you to balance your self, based on your chart. An invaluable addition to anyone's self-cultivation practice.

Payment is required upon registration along with your birth information: year, month, day and time (within 2 hours), as each person will receive their own individual chart for the workshop.
